SNAP PLUG™ TOOL

P/N : T10610 / T10610-10P

- Designed for the use on SNAP PLUG™
- Crimp and Trim at the same time
- Clean flush cut

SNAP PLUG™

CAT 5e / CAT 6 / CAT6a & UTP / STP

- Enable the conductors to pass through for easy installation
- Verify the wiring order before crimping
- Speed up the termination process

Why use **SNAP PLUG™**

The T3 SNAP PLUG™ and SNAP PLUG Tool is designed to simplify the process of terminating RJ45 modular plug. It is a time-consuming process to assemble traditional RJ45 modular plug, and the most difficult part would be putting the wire into the conductor in correct order. The thicker the conductor is, the more difficult the job is going to be.

The T3 SNAP PLUG™ enables the conductors to pass through the connector itself, making it a lot easier to verify wiring order before crimp, reducing possible errors and waste of materials.

- **EASY**
- **FAST**
- **LESS ERRORS**
